CERTIFICATE

     This is to certify that the project work entitled " **WEB-READ** " submitted to CHAITANYA BHARATHI INSTITUTE OF TECHNOLOGY, in partial fulfillment of the requirements for the award of the completion of IV semester of B.E in Information Technology, during the academic year 2021-2022, is a record of original work done by **Karthik Reddy Pesaru (1601-19-737-039), Mohammed Fawwazuddin (1601-19-737-041)** during the period of study in Department of IT, CBIT, HYDERABAD, under our guidance.

Project Guide
Smt. T. Satya Kiranmai
Assistant Professor, Dept. of IT,
CBIT, Hyderabad.

Head of the Department
Dr. K. Radhika
Professor, Dept. of IT,
CBIT, Hyderabad.

ACKNOWLEDGEMENT

We would like to express our heartfelt gratitude to Smt. T. Satya Kiranmai Ma'am, our project guide, for her invaluable guidance and constant support, along with her capable instruction and persistent encouragement.

We are grateful to our Head of Department, Dr. K. Radhika, for her steady support and for the provision of every resource required for the completion of this project.

We would like to take this opportunity to thank our Principal, Prof. G. P. S. Varma Sir, as well as the management of the institute, for having designed an excellent learning atmosphere.

Our thanks are due to all member of the staff and our lab assistants for providing me with the help required to carry out the groundwork of this project.

ABSTRACT

This project consists of the development of a contributory web for Writers & Readers. The goal of this application is to create a platform which enables the Writers & Readers to create, share and peruse the data inventory. It is meant to open the possibilities to share and read at the convenience of one's resources.

The website is meant to make publication made available in digital form, consisting of text, images, or both, readable on the flat-panel display of computers or other electronic devices. Although sometimes defined as "an electronic version of a printed book", some e-books exist without a printed equivalent. E-books can be read on dedicated e-reader devices, but also on any computer device that features a controllable viewing screen, including desktop computers, laptops, tablets and smartphones.

With e-books, users can browse through titles online and can download the e-book. With the use of **GetForm.io**, users will be able to share their writings by filling out the form which will be stored at **GetForm.io** database, which enables to review and host the writings of users and viewers.

The web application employs easy-to-use, relatively inexpensive, services together, such as HTML, CSS, and JavaScript programming languages. To enable the ability to host the website at free of cost, the site will be using the (**.netlify.app**) extension along with it.

CONTENTS

LIST OF SCREENSHOTS:

INTRODUCTION

1.1 Motivation

Web development is difficult to learn, especially when you are first getting started. It is easy to get stuck on a problem and end up quitting. Many people go through this cycle several times before they can harness the motivation to see it through to the end. Even more people never get the far.

I went through this cycle myself during the lockdown period and transformed me from someone who had an overview of web-development languages like HTML, CSS, JAVASCRIPT into a web-developer who has successfully deployed & hosted many websites, intended for a cause to use new techniques, and learn to adapt to new outcomes.

1.2 Objective of the Project

Our main objective for this project is to bring together the community, intended for Writers and Readers, which consists of the development of a website for the objective of this project is to design a platform which enables the Writers & Readers to create, share and peruse the data inventory.

It is meant to open the possibilities to share and read at the convenience of one's resources. The website is meant to make publication made available in digital form, consisting of text, images, or both, readable on the flat-panel display of computers or other electronic devices.

1.3 Project Statement

"A platform for Writers & Readers to create, share and peruse the data inventory."

PROJECT REQUIREMENTS

2.1 Software Requirements

Web-Read website is compatible with across all the electronic devices. With the implementation of screen-responsive support, the website can handle both the Mobile and PC operating systems.

The development of website is built using Microsoft Visual Studio Code.

For the convenience and easy-to-learn and easy-to-deploy, Netlify, a San Francisco-based cloud computing company, offers hosting and serverless backend services for web applications and static websites at free of cost for beginners. It offers basic computing storage and offers free security for sites.

2.2 Hardware Requirements

Web-Read website is compatible with all most all the electronic devices. With the new technologies, it is now possible for any electronic device with suitable processing speed to host and deploy our website for faster results.

IMPLEMENTATION OF PROJECT

       Our Project firstly Consists of Main Homepage which includes the direct access to our respective authors identities, easily and conveniently, with beautiful interface and with built-in features.

With the use of **GetForm.io**, users will be able to share their writings by filling out the form which will be stored at **GetForm.io** database, which enables to review and host the writings of users and viewers.

The web application employs easy-to-use, relatively inexpensive, services together, such as HTML, CSS, and JavaScript programming languages. To enable the ability to host the website at free of cost, the site will be using the **(.netlify.app)** extension along with it.

       3.1 MAIN HOMEPAGE consists of HTML code, embedded with CSS stylesheet. Homepage is the first landing site whenever a user clicks on the URL (https://web-read.netlify.app/), prompting the user to homepage.

Homepage is designed by using HTML & CSS which, when executed, displays the beautiful and gorgeous website. It is faster in deploying, thanks to the CSS works. Homepage lets a user to scroll and move freely. The user is free to let use and let read from the authors of his/her likes.

Homepage features the all-new "**FEATURE YOUR WRITINGS**", which lets the new talented writers to share their writings with the Web-Read team, to make it visible to the readers. Thanks to **GetForm.io**, the talented writers will be able to share their writings with the team by filling out the form, which will be stored at **GetForm.io** database, which enables the team to review and host the writings of users, viewers, and readers.

       3.2 AUTHOR'S PAGE consists of main HTML code, embedded with CSS stylesheet. Author's page is the second interaction in the website, with respect to the authors.

Readers will be able to interact with the Author's profile and the works published by the authors. Our website gives the reader the ability to peruse the works at free of cost and one's convenience. With the profile of author comes with their respective social media handles, which makes the readers to connect easily and peruse the other publications by them.

       3.3 DARK-MODE feature is provided for all the webpages except for the Main Homepage. Dark Mode gives the readers to read anywhere and anytime, without straining eyes.

ADNAN'S POEMS & POETRIES

B adi muddat se fursat ka talabgaar tha mai,

Ab mujhe fursat se fursat nahi mil rahi.

Ab talaash hai masrofiyat ki mujh ko,

*B*adi muddat se fursat ka talabgaar tha mai,

 Ab mujhe fursat se ,fursat nahi mil rahi.

 Ab talaash hai masrofiyat ki mujh ko,
 Ab is jahaan me masrofiyat nahi mil rahi.

---

*B*ina koi fiqr ke bhi mujhe dard e sar ho raha hai,

 Sabhi mardou ka yahi hashar ho raha hai.

 Par beewi ke taane to kisi par maa ki dandt,
 Ye Yaqeenan auratou ki awaaz ka asar ho raha hai.

*A*ashiq ki zindagi ek ghadi si hoti hai,

 Bajte hai barha toh ek pari usse milti hai

 Hoti hai shaadi toh khushi usse milti hai,
 Guzarta hai waqt toh duriya bhi badti hai

 Waqt ke saath saath chalte jaate hai wo,
 Bacho ke khatir khud ko juda karte jaate hai wo
 Waqt ke saath saath khud ko badal jaate hai wo,
 Zemedaari ke khatir aaqhiri had tak pohonch jaate hai wo

 Hoti hai zimmedaari poori jab toh khareeb aate hai wo,
 Bajte hai baara dobara toh wapas mil jaate hai wo
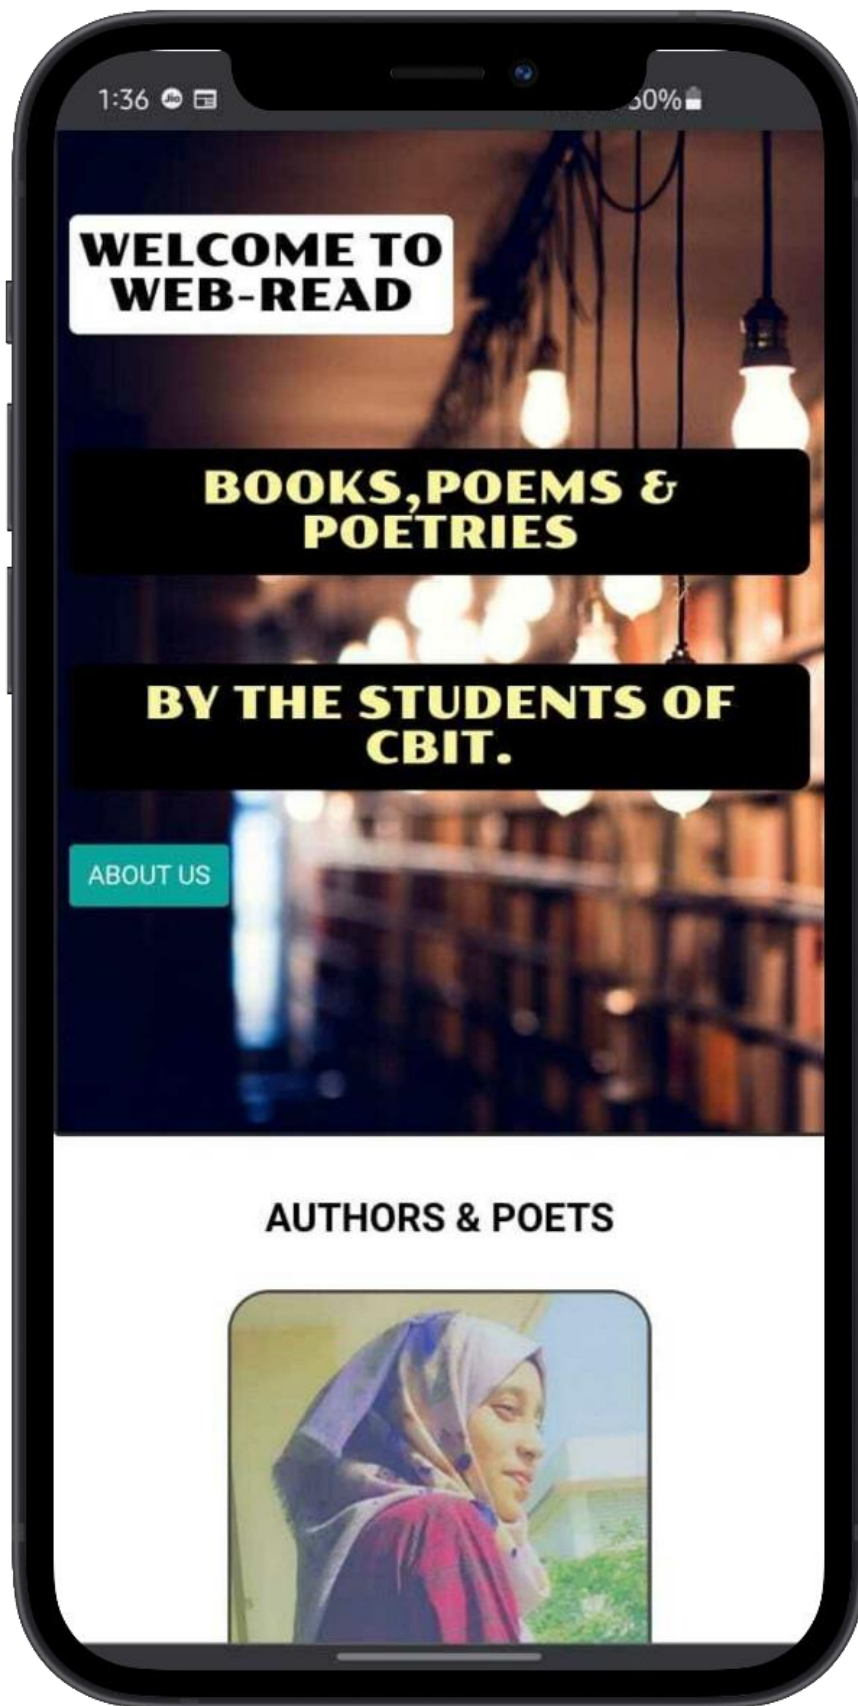

MOHAMMED FAWWAZ

AHMED RAOOFUDDIN

MOHAMMED BILAL

*B*reathe.

Breathe, let it go
Let a new dawn

Bring the fresh hopes
And even if it does not

You are still breathing
For a new tomorrow

---

*W*hy do you?

Lonely streets won't
narrate your story,
Dark alleys won't reply
those screams.

Their shadows won't

*M*ohabaath ki vo rah pey,

Ishq ki unn galiyon mein,

Akela khada,
Ussi ke intezaar mein!

Mohabaath ki vo rah pey,
Har din khada khada
subha,

ku sham hothe dektha,
Ussi ke intezaar mein!

Mohabaath ki vo rah pey,
Apni pyaar ki chavv mein,

Uss key liye bhi jag,
Bana key khada,

Ussi ke intezaar mein!

CONCLUSION

- Free access to reading enthusiasts.

- Platform to encourage the talents of students across the earth.

- Direct access to the social media handles of authors.

FUTURE SCOPE

- Run completely by A.I.

- Faster Load of webpages using Advanced JavaScript.

- Additional Add-ons.

- New and improved Database for data inventory.
